

Sovereign Scrub Out Black Mould

Scrub Out Black Mould is a fungicidal cleaner, supplied ready to use in a trigger action spray bottle.

Product Code

30806436

Description

Scrub Out Black Mould is a fungicidal cleaner; containing a powerful blend of biocide and detergent to eradicate mould on internal surfaces.

Form Supplied: Liquid ready to use

Pack Size: 500 ml Bottle

Colour Range: Clear

Contains: 2% Benzalkonium Chloride

HSE Number: 4810

Properties

Scrub Out Black Mould is used to sterilise mould-infected surfaces before redecorating. It may also be used as a maintenance wash to control mould or algae where painting is not possible or desired. Scrub Out Black Mould can also be sprayed around bath and shower areas to prevent mould growth on sealants and grout.

Preparation/Usage

Ready to use. A second application when allowed to dry, will delay the return of mould and algae in most areas. When using Scrub Out Black Mould to treat mould in bathrooms; after initial cleaning; to delay the return of mould. Scrub Out Black Mould should be used weekly as a maintenance product. Do not rinse off. Service life depends on local conditions, i.e. condensation will reduce the expected service life.

Sovereign Scrub Out Black Mould

Technical
Data Sheet **148**

GENERAL

There are basic measures to assist in the control of condensation and black mould.

These methods are particularly helpful in the domestic environment but can be applied equally to commercial, catering, leisure or medical establishments.

It is always important to reduce the risk of condensation by observing the following simple recommendations:

- ✓ Ensure rooms are always warm and properly ventilated, maintaining some low heating throughout the day if possible.
- ✓ Always use extractor fans in kitchens and bathrooms.
- ✓ When cooking and bathing keep the door closed and the window open and extraction fan running.
- ✓ Do not dry clothes on radiators. Tumble dryers must be vented externally unless of the condensing type.
- ✓ In cold weather keep some heating on all the time.
- ✓ Improve internal/external wall insulation.

Use a ventilation system where appropriate, such as the Sovereign Auto ConCure Positive Input Ventilation Unit.

When repainting areas then Sovereign Fungi-Chek Emulsion or Sovereign Fungi-Chek Anticon Emulsion should be used as black mould cannot grow on this.

LIMITATION

Scrub Out Black Mould used alone will not prevent the re-growth of mould in the long term. Its use is to remove active attacks prior to decoration. For long-term eradication of mould a Sovereign Auto ConCure PIV Unit can be fitted. This device acts to produce a positive air pressure within the domestic environment and will keep the relative humidity below a level that will support condensation.

COVERAGE

4-6 m² per bottle, depending on the porosity and roughness of the surface.

Storage: Between 5°C - 30°C.

Shelf Life: 12 months unopened.

HEALTH & SAFETY

- ! Avoid skin and eye contact.
- ! Handle only when wearing protective clothing.
- ! Wash splashes from skin with soap and water, flush eyes with copious amounts of water and seek medical attention if irritation persists.
